Logo Guidelines

Logo Construction

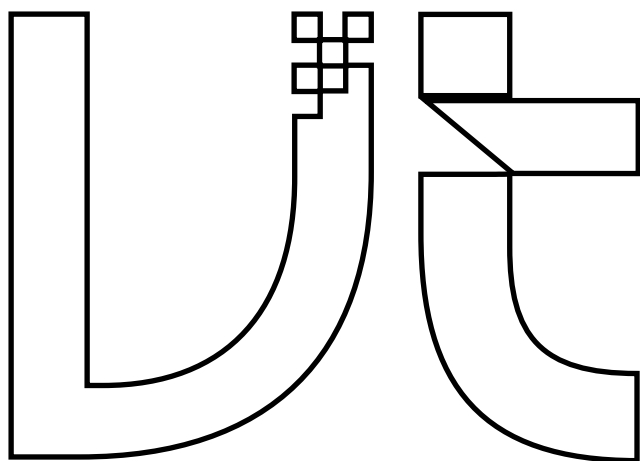

The **Vamos Taxi** logo is a refined typographic logo that combines modernity, mobility symbolism, and digital identity, reflecting the brand's mission of elegant, tech-driven transportation.

Typography & Structure : The logo is based on a custom sans-serif typeface, rounded and geometric, reflecting approachability, comfort, and modernity.

Each letter is perfectly spaced, with a harmonious rhythm that reinforces simplicity and professionalism.

The overall composition maintains a horizontal alignment, ideal for both digital and physical branding applications.

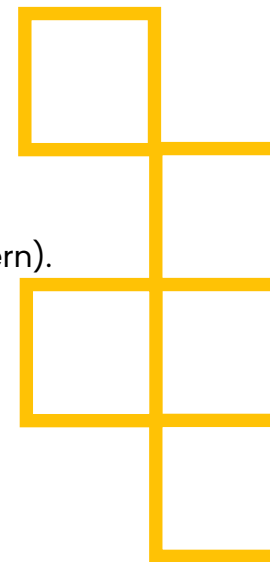

Iconic Modifications

Letter "U":

Constructed with a clean vertical stem and a soft curve.
Topped with three yellow checkered pixels, referencing:
The classic visual identity of traditional taxis (checkerboard pattern).
The digital transformation of transport (pixels = tech/data).
A visual "spark" symbolizing energy, start, or ignition.

Letter "t":

Modified to include a yellow horizontal bar, evoking:
A road marking or directional line, suggesting forward motion.
The color yellow emphasizes energy, speed, and visibility.

Safety Margin

A minimum clear space surrounds the brand logo to ensure maximum visibility and prevent any interference from surrounding text or graphic elements.

This buffer zone protects the integrity of the logo across all applications and must be respected at all times unless otherwise specified.
